Disclosure rules largely pertain only to fracking, but this website should be particularly helpful - FracFocus is a clearinghouse of frac regs in each state. Links are provided for each state's disclosure regs on this website. The rules for WY went into effect Sept 15, 2010.

FracFocus website, with links to state regs:

<http://fracfocus.org/regulations-state>

Wyoming Rules can be found here (you have to expand the list under Chapter 3, and go to section 45 for well stimulation):

<http://wogcc.state.wy.us/wogcc/help/commission.html>

Gary Strong with the Wyoming Oil and Gas Commission was particularly helpful if you need help - 307-234-7147 (you have to ask for him at this number).
